Re: Approval of the Cleanup level for soils at Commercial sites in Rico, Colorado.

Dear Voluntary Cleanup Applicants:

The final review of the Lead Health Risk Assessment for Rico Townsite Soils dated 4/6/06 has been completed. This review has determined that cleanup to a level of less than or equal to 1700 ppm Lead could be considered protective of workers at commercial locations in Rico, Colorado.

If you have any questions concerning this letter please feel free to contact me at (303) 692-3449.

Sincerely,

Mark E. Walker
Voluntary Cleanup Program
